Aspiring Front-end Developer with six months of internship experience in Front-end Development. Skilled in creating visually appealing, user-friendly interfaces and collaborating with designers to build engaging web experiences. Seeking an entry-level position in a dynamic organization where I can contribute to the company's success while growing professionally and personally.

Experience

● SkyTech Pvt.Ltd | Front-end Developing | ReactJS | Internship

Jan-2024 to July-2024

- During my internship, I deepened my expertise in web development, particularly with React.js by working on a live project for the company.
- I started by revisiting fundamental concepts in HTML, CSS, and JavaScript to ensure a solid foundation.
- I emphasized responsive design, mastering media queries to adapt layouts across various devices, and honed version control skills for effective collaboration.
- My hands-on experience with React.js encompassed component-based architecture, state management, and routing, which I applied directly to the live project, contributing to the development of dynamic and interactive web applications.

● Way To Web Pvt.Ltd | Internship

May-2023

- In this Internship I learned about how actually a Web works and every science behind it.
- Learning HTML and CSS during an internship is a fantastic opportunity to gain practical experience and build a solid foundation in web development.
- Basics of Javascript Programming Language were also taught to us.

Project

- UrbanAttire | E-commerce Clothing Website | ReactJs : [LINK](#)
